

Outdoor Catalogue
Volume 6 | 2026

Welcome

Our latest outdoor collections are designed for a life lived outdoors, bringing together contemporary furniture for **residential** homes and **commercial** spaces alike. Thoughtfully developed through our own factories, each piece balances **enduring quality** with a relaxed Australian way of living, creating places to gather, unwind and entertain.

This season introduces two new collections, **Riviera** and **Bonsall**. Riviera captures the ease of long afternoons outdoors with the launch of the **Paloma Siesta** together with new additions to the **Komo II** collection and refreshed favourites in updated colours and finishes. Bonsall embraces softer forms and woven textures with the introduction of **Elin**, **Juni**, **Kalle** and **Pelle** offering a fresh perspective on outdoor living that feels warm, inviting and effortlessly relaxed.

Built to withstand the Australian climate, every collection features **premium outdoor materials**, all weather construction and high performance fabrics, making Satara's outdoor range equally suited to private residences, boutique accommodation, hospitality venues, resorts and commercial environments.

From coastal retreats to destination spaces, Satara brings relaxed, outdoor living to commercial projects with furniture designed for lasting appeal.

Hayman Island

Outdoor Furniture Specifications

Sunbrella Fabric

Sunbrella is well known throughout the industry for its outstanding outdoor performance in marine applications. Sunbrella Outdoor Furniture Fabrics combines its unique yarn technology with a wide selection of classical and contemporary patterns.

V Legal Teak

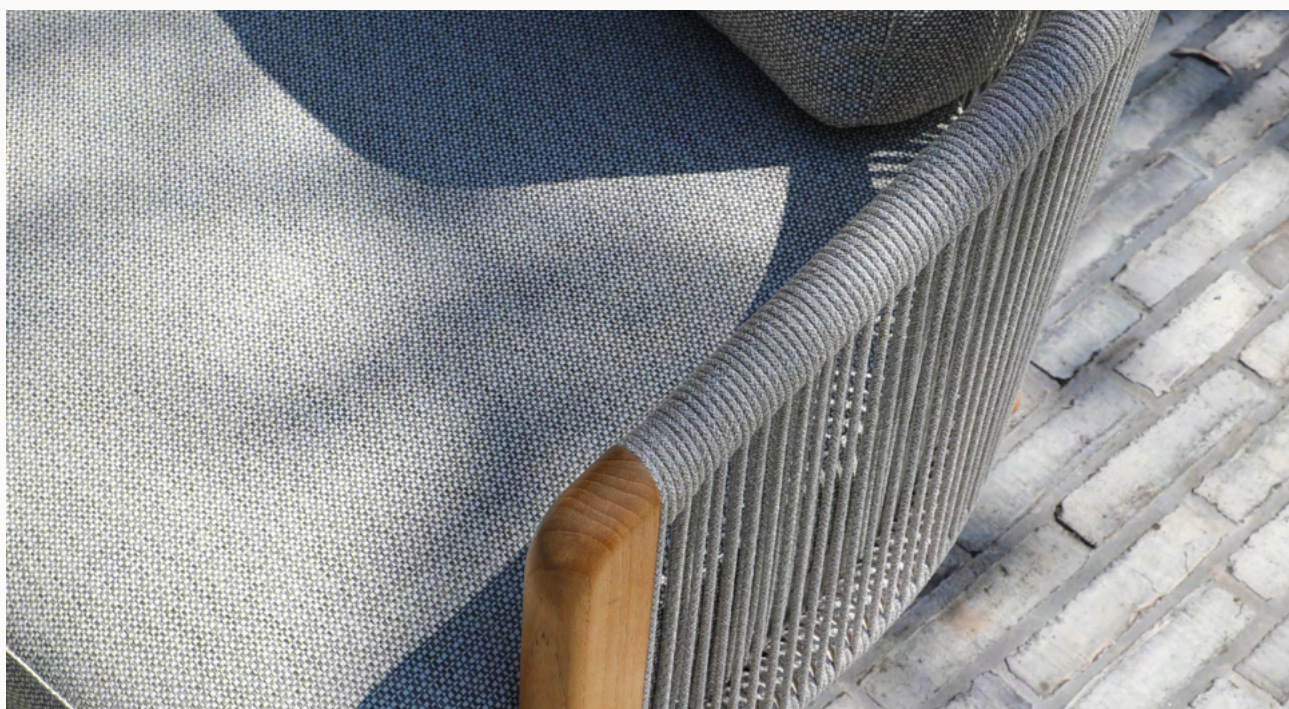

A naturally high oil content that makes it ideal for use outdoors. It is extremely hard wearing and very resistant to rotting and the effects of natural elements.

Sunproof Fabric

Sunproof is an established outdoor fabric manufacturer based in Indonesia. All of Sunproof's fabrics are made with Solution Dyed Olefin- acrylic and are engineered with ultraviolet blocking agents that resist fading; ensuring consumers will enjoy their outdoor furniture for years to come.

Quick Dry Foam

We use Quickdry Foam on the majority of our outdoor furniture and combine this with drainage mesh on the underside of our base cushions to allow any moisture to pass through the cushion enabling it to dry quicker and minimise issues with moisture and mould.
