Wisteria Edit Vol. 11

Meet the Creative Director

For the Love of Interiors.

Wisteria is an Australian leader in home furnishing that delivers beautifully built, Australian designs from small makers, hand weavers and world leaders in manufacturing.

Wisteria is founded in the values of family and friendship. We are bound by a love of connection and inspired to bring a sense of elegance and joy to homes across Australia.

Christopher Sayers

I am fortunate enough to come from a long line of furniture makers and learnt the ropes at our family manufacturing plant in Brisbane, Australia. I also lived in the southern states and overseas working in textile and furniture both residential and commercial and wow have I seen a lot of change. But more about that another time.

One thing that remains for me is my love for furniture and interiors. Of course, it's in my blood but I believe that the way we live is so important. It can be about being flashy and expressive and that's great fun. But I think our homes, workplaces and the places we visit to dine, drink, celebrate and relax are an essential part of who we are and maybe even a window to the soul.

Wisteria is certainly a team effort, and we take great pride in our pieces, their heritage and of course the quality and conditions of our making.

We have old fashion values of an extended family here at Wisteria and nothing is ever too much trouble, just ask.

Thank you very much for considering our collection and supporting us as a local wholesaler, it means the world and is essential to helping us carry on our work and follow our passion for beautiful furniture.

Christopher & Team Wisteria

Britannica

Britannica & Venus are hand carved from beautiful plantation grown Brazilian teak and finished with a grey oil to tone them to a rich earthy colour. The timbers will grey off over time and can be stained and oiled to suit your taste. Although teak is an outdoor timber it is advised to treat them respectfully as "Alfresco" pieces.
